Community Dispute  
Resolution Centers

# ANNUAL STATISTICAL REPORT

FISCAL YEAR 2022-2023

## INTRODUCTION

The Community Dispute Resolution Centers Program (CDRCP) is an initiative funded, managed and supervised by the New York State Unified Court System (UCS). Established in 1981, the CDRCP offers conflict resolution services that help people address and resolve issues between individuals and within groups, to constructively handle disputes, avoid prolonged litigation, and even prevent violence. The CDRCP funds independent not-for-profit agencies – CDRCs – in every county of New York State who collectively provide services in more than 20,000 case serving more than 50,000 New Yorkers.

CDRCs' free and affordable conflict resolution services including mediation, arbitration, multi-party facilitation, training, conflict coaching and restorative practices. About half of CDRC cases originate in the court. The other half consist of self-referrals – oftentimes previous clients – and referrals from other organizations that serve the community such as law enforcement, legal services, and schools. Many common types of disputes, such as neighbor and community disagreements, child custody and visitation disputes, small claims matters, and landlord-tenant issues are well suited for CDRC services. Any New Yorker may use the services of the CDRC in his or her local area, regardless of whether he or she has a case pending in court.

## ANNUAL STATISTICAL REPORT OVERVIEW

OADR collects data from every CDRC throughout the year, gathering information about the types of cases handled, who has referred them, what processes parties go through and the ultimate outcome of the case. To ensure that data is reported using the same standards across the state, OADR provides CDRCs with software used for case management, data collection, reporting and analysis.

The CDRCP Annual Statistical Report provides detailed statistical reports on the workload and of the CDRCs for the 2022-2023 fiscal year. It shares specific information on the types of cases handled, case outcomes, and referral sources. Some reports contain aggregate statewide case data, whereas others organize the data by county.
