

## Q & A for OCA-DCPS-019 Suffolk County Family Treatment Court

### Questions

1. What are the goals and objectives for this evaluation as envisioned by UCS?

**UCS Response:** The goals and objectives for the evaluation, as envisioned by UCS, are to systematically assess the effectiveness and impact of the program services being implemented. This includes measuring key performance indicators, ensuring compliance with established standards, and identifying areas for improvement. The evaluation aims to provide data-driven insights that will inform decision-making, enhance service delivery, and ultimately improve outcomes for the individuals served by the Suffolk County Family Treatment Court.

2. Does FTDC track court-involved parent and child participation and completion in outreach, intervention (i.e., Child Parent Psychotherapy and Strengthening Families program) and treatment services? Will this data be available to the evaluator?

**UCS Response:** The successful bidder will collaborate with the court and contracted provider to develop and implement protocols to collect required performance measures and evaluation data. This process will include the identification and integration of any variables that are not currently collected.

3. Will UCS provide the evaluator with court-client outcome data?

**UCS Response:** The successful bidder can request a download of the data in Excel format that is entered into the court database for evaluation purposes.

4. Can you share the grant application or abstract? If not, will it be available to the awarded vendor?

**UCS Response:** A copy of the grant narrative and abstract will be provided to the successful bidder.
