APPENDIX A	11

INTRODUCTION

Section 528 of the Judiciary Law, adopted on June 15, 2010, directs the “commissioner of jurors to collect demographic data for jurors who present for jury service.” The statute directs collection of data describing race and/or ethnicity, age and sex. The statute further directs submission of an annual report to the Governor, Speaker of the Assembly, President of the Senate and the Chief Judge of the Court of Appeals. This report is for the calendar year 2025.

BACKGROUND: QUALIFICATION AND SUMMONING OF JURORS

All 62 Commissioners of Jurors participate in a centralized Jury Management System. The System implements policies and practices consistent with statutory and regulatory requirements pursuant to the Judiciary Law (Article 16, Sections 500 - 528) and the Rules of the Chief Administrative Judge, Part 128.

The New York State Unified Court System uses a two-step system for qualifying and summoning jurors. The first step is juror qualification accomplished through completion of qualification questionnaires by potential jurors. The second step is summoning qualified jurors to serve. Questionnaire and summons mailings are requested through the Jury Management System and sent to prospective jurors by First Class Mail. Through both steps of this process, all potential juror and juror records must be kept confidential pursuant to Judiciary Law, Article 16, Section 509.

QUALIFICATION

Jurors are qualified by completing Qualification Questionnaires. Qualifications are the same for trial and grand jurors. Statutory qualifications pursuant to Judiciary Law Section 510 are: US citizenship, residence in the county from which the questionnaire was sent, age 18 or older, ability to understand and communicate in English, and no felony conviction (holders of a certificate of relief from civil disabilities or a certificate of good conduct are qualified to serve).

Once a year, the Unified Court System requests lists from five New York State agencies. These lists are used to randomly select names and addresses of potential jurors to whom questionnaires are mailed. The court system receives a data file from each agency. Each file contains all people who are in the agency’s file as of the date it is supplied. The file contains the name and address for each person included in the file. The five sources are:

1. Department of Taxation and Finance: NYS tax filers
2. State Department of Labor: Persons receiving unemployment insurance
3. Office of Temporary and Disability Assistance: Persons receiving home relief or aid to families with dependent children
4. Department of Motor Vehicles: Persons with driver’s licenses or DMV-issued identification cards
5. Board of Elections: Registered voters

In addition to the names on these lists, individuals who meet statutory qualifications for jury service can volunteer to be included in the pool of people available to be summoned by completing an online volunteer questionnaire available at www.nyjuror.gov.

The source lists are processed by the Jury Support Office to remove duplicate records, records of people who are under 18, and records of people who live outside of New York. The remaining “reconstituted” list is used as the pool of potential jurors. Immediately before sending mail, all juror and potential juror’s records are compared with the US Postal Service’s National Change of Address (NCOA) database to keep the juror pool current and accurate. The NCOA comparison is repeated for other jurors during the annual reconstitution process.

Individuals are randomly selected, within their county of residence, from the “reconstituted” list to be mailed questionnaires upon request by the Commissioner of Jurors. Questionnaire responses are reviewed to determine qualifications. Any juror who fails to respond to a questionnaire is automatically sent at least two follow up questionnaire mailings. The final questionnaire is always a noncompliance questionnaire, requiring response by the juror within 20 days.

SUMMONING

Randomness of summoning is maintained by mailing summonses to qualified jurors in the same order in which each one was selected at random to be mailed an initial questionnaire. Volunteers are summoned by date order of qualification. A qualified juror who is not summoned within 18 months of being qualified becomes eligible to receive a new qualification questionnaire.

Any summoned juror who fails to respond to two consecutive summonses receives a Summons Notice of Noncompliance warning, pursuant to Judiciary Law Section 527, that a judgment may be imposed for failure to appear and requiring a response within 20 days of receipt.

DATA COLLECTION PROCEDURES

Each person who appears for jury service is asked to complete a scannable data collection card. The data collection process is anonymous, meaning the completed cards are not traceable to the individuals who complete them. Efforts are made to exclude from completing cards those who appear but do not serve.¹ The card explains that New York State Judiciary Law Section 528 requires the court to collect data about jurors.² The juror is asked to:

- fill in the date
- indicate whether they were “here to serve as a trial juror or a grand juror”
- indicate gender³
- answer questions about Hispanic origin, race, and year of birth, and
- indicate county of jury service.

The collected cards are scanned and the data compiled and analyzed by the Jury Support Office.

OVERVIEW

For the calendar year 2025, there were 362,951 completed cards collected and successfully scanned. During the year, 382,641 jurors appeared for service.

The following pages contain tables showing numbers of jurors served and cards completed in each county in 2025, followed by tables showing the percentage of responses by county for gender, Hispanic ethnicity, race and age. The number of cards processed occasionally exceeds the number of jurors who served as some jurors who appear in response to a summons are postponed, excused or disqualified. It can be difficult to exclude them from completing cards.⁴

1. Those who appear but do not serve include people who do not meet qualification criteria pursuant to Judiciary Law Section 510; and qualified jurors who request and receive an excusal or a postponement pursuant to Judiciary Law Section (a)(1) or 517(a)(2).
2. A copy of the data collection card is attached as Appendix A. The full text of Judiciary Law Section 528 is included on the back of the card.
3. The Office of Court Administration’s Jury Support Office collaborated with the Richard C. Failla Commission to make a recommendation to the Administrative Board on expanding gender options on jury related forms. As of January 1st, 2020, the data collection card includes these values: Male, Female, Transgender, Nonbinary, Intersex and Other as reported in Table B.
4. Generally, row totals do not equal 100% due to non-response.
